

The Zombie Rights Campaign

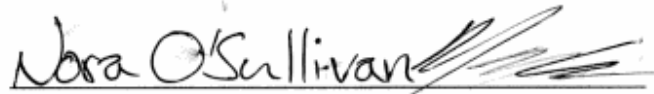

We, the undersigned, call upon George A. Romero to renounce his Living-Supremacist depiction of the Differently Animated (also known as Zombies) in any and all future films. Romero's work has long been a source of anti-Zombie prejudice and has only served to sow discord between the living and Undead communities. It is therefore imperative that he take steps to repair the grievous damage he has done to the fabric of our society.

Signed,
